Towcester A43 Relief Road Scheme: Night-Time Road Closure Announcement

As part of the Persimmon Homes Towcester A43 relief road scheme, there will be a full nighttime closure on the A43 on 7 February 2025.

Following public feedback regarding the difference of surface level on the northern cross over, we will be adjusting the cones and studs to realign the vehicle cross over point. This adjustment aims to ensure a smoother passage for the larger vehicles that use the A43.

We will be closing the A43 Southbound carriageway on 7 February 2025 for 1 night from 22:00pm – 06:00am.

Southbound diversion route includes using the A5 to Bletchley and then joining the A421 back to the A43.

These improvements are crucial for enhancing traffic flow and safety in the area, and they will connect the relief road to the A43, which will help reduce traffic through Towcester once it opens.

We regret any inconvenience that this closure may cause. For the latest information, visit Persimmon Homes' dedicated information portal at www.resident-portal.co.uk/towcester
